Ambulatorio di strada

Surgery on the Road

*The ambulance cross
the city through its most
hidden reality.*

*The health and social staff
all together meets,
listens, offers base
medical care and guide
to the use of social and
health services*

**for migrants..... but
not only !!!**

Ambulatorio di Strada

Uncompained minors

**It's a big Scientific
Legal Ethics
Problem !**

**we visit them with an
holistic and
multidisciplinary
vision, since 2009**

**with a medical examination we must
understand if he is a minor.....**

6000 migrants in ten months

Sanitary assistance on landings

We see and listen stories of men, women and children fleeing from other countries and different cultures.

It is a professional and human experience that can not be told, if you want understand you have to live this experience. Today I am here because I am sure that we must answer to this great epochal tragedy,

we can do more together !

Thank you
